

BUZZRUNNER SPARK 2&3

TOW BALL PLATFORM TYPE BIKE CARRIER

BuzzRunner SPARK is our best bike carrier and surely one the best bike wheel support rack on the market. What's the story? Fundamentally it's down to design, safety, quality, and ease of use.

- Available in 2 or 3 bike capacity
- Supplied almost fully assembled, minimum work required.
- Fits to all standard 50mm ISO tow balls with an easy "first time out only" adjustment system. Simple and fast.
- A simple button allows adjusting the tightening force.
- Genuinely easy to tilt with front handle, well balanced during the tilting phase, and tilts far enough for gate access.
- The wheel holders slide in and out and accommodate all wheelbases, even very small children's bikes.
- The wheel holders include tough and easily adjusted wheel straps in ratchet system which are long enough to hold the biggest rims.
- All bike holders have locks, and the carrier also locks to the tow ball.
- The carrier folds flat for easier storage.
- The folding light holders allow the product to be used on any type of cars and for compact storage size
- The five function rear lights is fitted with a 13 pin plug for 13 pin electric sockets. Adapter 13 pin (rack) to 7 pin (car) included with the product.
- The build quality-tube bending, welding, rust proofing, painting, component quality, is exemplary. All tools you might need are provided.
- TÜV approved to the ISO standard 15263-4.
- We also think it looks great!

- Weight: 16kg / 17.1kg
- Max load capacity: 30kg / 45kg
- Max weight per bike: 15kg
- Tilting: yes
- Integral lighting board: yes
- Lighting board plug type: 13 pin (Lighting adapter 13 pin (rack) to 7 pin (car) included)

- Bike carrier to tow ball lock: yes
- Bike carrier to bike lock: yes

BUZZRUNNER SPARK 2 / SPARK 3

BUZZRUNNER SPARK 2	BUZZRUNNER SPARK 3	Weight
S=40kg minimum	S=40kg minimum	1 x
S=55kg minimum	S=55kg minimum	2 x
S=70kg minimum	S=70kg minimum	3 x

Useful information:The maximum permitted load you can carry is also determined by the tow bar nose weight; you will need to check you don't exceed this before using any tow ball mounted bike carrier.Requires 65mm clearance from centre of tow ball to rear of vehicle. If you have a 7 pin socket the reversing light and fog light will not work. The 7 pin socket isn't wired for these functions.
